

Montana Department of Agriculture- Organic Certification Program

Field History Form

Give the following information on each field under your management, including those requested for organic certification, fields in transition / conversion to organic production, and non-organic fields. *Transition / in conversion* means that the fields are being managed in accordance with organic standards but have not yet met the standard for 36 months without use of prohibited products. Three years of history for each field are required with your application for certification. Make copies so you can use the same form for four years (three years history plus current year). Contact the Montana Department of Agriculture (MDA) Organic Certification Program for additional forms or if you have questions.
